

Justis EU

European legal research in **no time**

Justis

Europe is growing.

It's growing in size. It's growing in influence. And the application and weight of its laws are growing at a faster rate than many busy practitioners can keep up with. Without competent information management, the situation can only worsen.

Justis EU is CELEX, OJC, OJ Daily and the all new Caselex. With its breadth of coverage and efficient data handling, Justis EU is essential for the quick retrieval of the information you want - or rather, the information you **need**.

Our versatile technology ensures time-saving searches can be conducted in a number of ways including:

Partial Reference Searching

Find documents without the need for an exact reference.

Common Name Searching

You call it the Distance Selling Directive so that's what we call it.

Keyword and free text searching

For when you need a document concerning a certain topic but can't find its name or reference.

User-defined alerting

Save your searches and set up alerts to receive automatic notification of any new documents that match your criteria.

Furthermore, fast cross-referencing of EU information is available for **JustCite** users through the JustCite European Citations search tab.

Our new and enhanced package includes a database of summaries from the supreme courts of EU states for cases relating to EU legal issues, along with the full-text EU legislation and other established components of our European Law offering.

Justis CELEX

The backbone of Justis EU

1

Designed to monitor developments in legislation and going back to 1951, the information contained in the CELEX database is drawn from all the principal EU institutions, making it the foundation of all databases of EU activity. The first commercially available, searchable version, Justis CELEX has, for over 20 years, provided the most intuitive and easily searchable database, with better results handling than any of the competition.

Taking original full-text data from the European Commission, adding unique features and greatly enhancing its usability, Justis CELEX has dramatically simplified research into EU law. Coverage includes:

- **Treaties & External Agreements**
- **Secondary & Supplementary Legislation**
- **Proposed Legislation**
- **Case Law**
- **National Implementation information**
- **European Parliamentary Questions**
- **OJC Documents**
- **EFTA Documents**

JUSTIS
PUBLISHING

2 Official Journal C Series (OJC)

A unique collection complete with full archive

Documents from the C Series of the *Official Journal of the EU*, with the full text of proposed legislation from 1990, written questions and answers from the European Parliament, notices of new treaties and details of competition law.

3 OJ Daily **Delivering EU information, daily**

Starting in 1998 and updated every working day, OJ Daily contains the tables of contents of the OJC and L Series (adopted EU legislation), with links to the full text.

4 Caselex **The new and exclusive addition to the package**

A groundbreaking and time-saving database, Caselex compensates for the lack of domestic precedents on which cases dealing with EU law can be based. With a unique collection of high-quality summaries of cases - translated into English - from the supreme courts of a growing list of EU states. Caselex is a glowing proposition for our key customers.

Currently covering 22 member states - and counting - it also summarises cases from Iceland, Norway, the EFTA Court, the EU Court of Justice and the EU Court of First Instance.

Though part of the Justis EU package, it benefits from the advanced functionality of its own dedicated platform at www.caselex.com, for which we are the sole UK and Ireland distributors. Fully searchable, with noting, alerts and many other essential features in common with the Justis database, Caselex initially focuses on:

- | | |
|----------------------------------|--------------------------------|
| Company Law | Labour Law |
| Competition Law | Consumer Protection Law |
| Intellectual Property Law | Environmental Law |
| ICT & Media Law | Public Procurement Law |
| Freedom of Movement Law | Social Security Law |
